

Specialist Designing & Fabrication

Ceramic, Opaque, Porcelain, Silica, Stone and Bone Laboratory ware for Education, Hospital, Industrial Research Labs Industries, & House ware

e-CATALOGUE PRICE LIST 21

CENTRA was born as CENTRA Clay Crafts way back in 1962 only to serve Iron remelting furnance by manufacturing high alumna & high mica Furnace Bricks + Tiles & Fillers & at the same time were marketing complete Laboratory Porcelain ware range after getting it developed per our designs from some other vendors .

But as all these were part time vendors. So are not manufacturing any or all of the ordered or required material per our Specifications as well as standards. So it was decided in 1987 to start our in house manufacturing of CENTRA brand Laboratory Porcelain Stone - Silica as well as Opaque ware.

In 1992 we got services of a well established Taiwan

based Quality consultants to guide us in our R & D as well as Quality balancing acts & after that very day till now we are keeping our selves many steps ahead of other manufacturers & as a matter of fact we have many feathers in our cap by introducing largest Products range + Standard Smallest Packings (S.S.P) + Specially Designed Thermo Cartoon S.S.Packs for each size & each product + Snow White Colour scheme standerization by Imported Computer aided mixers + Largest in house Stocks + Wdely illustrated multi coloured Labels for each & every Product & size.

As on day CENTRA is available in more then 40 countries through Distributors network & if you will help us then we can cover many more in coming times.
